BLUE FIGURE PRICE LIST

Prices are Subject to Market Changes and to Stocks being Sold Out. Prices are f.o.b. Faribault, Minn.
(unless marked "ppd.") Bags are included in weight.

LIMITATION OF WARRANTY: The Farmer Seed & Nursery Co. warrants to the extent of the purchase price, that at the time of delivery, the seeds

sold are as described on the container, within recognized tolerances. We give no other or further warranty expressed or implied.

FARMER SEED & NURSERY CO.

Faribault, Minn.

Jan. 10, 1952

ORDER EARLY! Many items are short this year. Transportation service is slower, due to overloaded railroads.

NO PART-PAYMENT Stocks move so rapidly it is impossible to accept part-payment orders for deferred shipment.

EXCEPTIONAL LOT OFFERS FOR EARLY ORDERS

Lot "Best Buy" GRIMM ALFALFA

This is a lot of Montana Grimm Alfalfa that will be the best buy of the year in Alfalfa. It is good hardy seed, free of weed seeds, and high in germination. It has good color, with a very small amount of brown seed. The only reason we can offer this seed at such a big saving is that it contains about 4.6% Sweet Clover. There is no better seed at this price. If you want hardy Alfalfa for hay or pasture you can benefit by using this seed. Only a limited amount in this lot, and it will be sold out early. Chem Coated.

BU. only \$39.75 (100 lbs. \$66.00)

Lot "Bountiful" PASTURE MIXTURE

Experience has proven that a properly balanced mixture of grasses and legumes is most desirable for dependable pasture. This mixture is balanced to produce the maximum forage throughout the growing season. The mixture consists of Medium Red, Alsike, Sweet and Ladino Clovers, Alfalfa, Timothy and Bluegrass. The use of grasses prevents bloat and the legumes produce the greater yield throughout the pasture season. Make your pastures more productive by seeding your acreage now with this "Bountiful" Mixture. Seed 15 lbs. per acre. This seed is "Chem-Coated."

100 LBS. only \$43.75

Lot "Economy" LINCOLN BROME GRASS

Here's a special lot of 1950 crop Certified Lincoln Brome carried over from last year. Bags are still sealed with 1950 seals and tags of Nebraska's Crop Improvement Ass'n. It's all bright, clean seed over 90% pure. However, germination is now 70%. While this is 15% below the rigid requirements for Certified seed, the price is 27% below that of Certified seed! — AND its purity still matches that of the best Certified seed! Our loss is your gain on this special lot of only 5000 lbs. It's a real buy at this price, but order early!

100 LBS. only \$33.00

Our Chem-Coated Farm Seeds Give Better Stands!

When you buy farm seeds, be sure to get the DOUBLE BENEFITS of our superior quality Northern seeds, — PLUS the assurance of better stands from our new Chem-Coated treatment! Experiment stations found seed treatment as beneficial to small legumes and grasses, as it was to seed corn. Our "Chem-Coated" seeds provide better stands, more vigorous seedlings, AND you can still inoculate Chem-Coated seeds with Nitragin if you wish. Why gamble on a poor stand, when you can get the finest quality Northern grown seeds — "Chem-Coated" for extra protection — at NO EXTRA COST!

Plant at the rate of 2½ lbs. per acre checked, or 3 lbs. per acre drilled. See your implement dealer for proper planter plates. See catalog page 11 for complete description and small quantity prices.

SILAGE AND FODDER CORN

IDEAL HYBRID SILO CORN, Master F 106A (Page 65, Prices at left)

Special Lot 'Vigor' Hybrid Corn Blend

A properly proportioned blend of selected varieties, which has proven very popular. These blends provide maximum insurance against periods of adverse weather, since there is enough variation in maturity so that only a part of the crop reaches a critical period at any one time.

Early Maturity blend
(85 to 100 days)
SOLD OUT

Late maturity blend
(100 to 115 days)
ONLY \$5.50 per BU.

This "Special Lot" has exactly the same inheritance, germination and purity as our No. 1 Certified Seed. It consists of the thick kernels, graded from our Certified Hybrids. These "thicks" are evenly graded, and germinate 90% or better. Nothing finer for drilling, for silage, or for "hogging off." Use your medium or small plates.

Lot 'Silo King' Hybrid Fodder Corn

This special lot consists of A-1 Hybrids, accurately graded, and especially selected for their ability to produce a great tonnage of fodder. The seed is all uniformly graded, and Chem Coat treated. Germination will be above 90%. Lot Silo King comes in three maturity groups. When ordering, be sure to specify which maturity class you want:

EARLY (SOLD OUT)
MEDIUM (SOLD OUT) } **FLAT GRADE \$7.50 BU.**
LATE (OVER 110 DAYS) } **(ROUNDS: \$6.50 BU.)**

State Certified SEED POTATOES, Northern Grown

Certified Seed Potatoes are your best crop insurance. Don't buy just ordinary U. S. No. 1 Grade Seed Potatoes—don't let price decide the placing of your order. You have too much at stake to gamble with ordinary seed.

For years we have specialized in State Certified Potatoes. These are checked for disease and type repeatedly during the growing season—inspected again at grading time, and in the bin. Finally they merit Official Certification Tag on each 100-lb. bag.

We cannot offer Certified Potatoes less than bag lots (100 lbs.) Those requiring smaller quantities, are asked to join with neighbors in making up full bag orders, or buy Potato Eyes (page 20).

ABOUT POTATO EYES

For trial purposes or small gardens, Seed Potato Eyes will be available in all varieties. Small gardeners will save on seed costs and transportation in ordering these—see page 20
